Prateek Srivastav

Senior UI/UX Designer

+91-8447435881 | prateek04srivastav@gmail.com | Gurugram, India | Linked-in | Portfolio

SUMMARY

Designer with **5+ years** of experience designing user-centric web and mobile applications. Expertise in end-to-end product design, including user research, wireframing, prototyping, high-fidelity UI, design systems, usability, accessibility, and cross-functional collaboration within agile environments.

SKILLS

Design Tool: Figma, Adobe Illustrator, Adobe After Effects, Adobe Premiere Pro, Sketch & Adobe XD

UI/UX & Product Design: User Interface Design, User Experience Design, Product Design, Visual Design

UX Process & Research: User Research & User Flows, Wireframing, Prototyping, Usability Testing, Information Architecture, Design Thinking, High-Fidelity Mockups, Human-Centered Design

AI Emerging Tools: Claude, Miro, Stitch, Chatgpt, AI-Powered Design Tools, Generative Design, AI-Assisted Prototyping

EXPERIENCE

Nexyom Pvt. Ltd.
July 2026 - Present

Senior UI/UX Designer
Gurugram, India

- **Led end-to-end product design from discovery to delivery,** creating multi-screen workflows and user journeys from scratch for complex SaaS experiences.
- **Developed scalable design systems and reusable UI components,** improving design consistency, efficiency, and scalability across multiple product modules.
- **Translated complex client requirements into intuitive,** high-fidelity prototypes, iterating rapidly based on stakeholder feedback and usability considerations.
- **Managed client-facing design collaboration,** presenting solutions, facilitating feedback discussions, and aligning product experiences with business and user goals.

Independent Projects / Self-emplyed
June 2024 - June 2026

UI/UX Designer
Gurugram, India

- **Craft my Plate - Bulk Food & Catering Platform:** Designed the complete product experience from research to high-fidelity UI, including user flows, wireframes, scalable design system, menu discovery, ordering, and checkout.
- **Register Karo - Business & Compliance Platform:** Redesigned the homepage with improved visual hierarchy, CTA visibility, content clarity, and a modern conversion-focused interface aligned with brand guidelines.
- **Merge AI - AI Image Generation Platform:** Designed the end-to-end creator experience, covering image upload, AI generation workflows, processing states, and social-ready outputs.
- **Client Collaboration & Recognition:** Worked directly with founders and clients, translating business requirements into intuitive experiences through clear communication, rapid iterations, and feedback-driven design.

CBRE Pvt. Ltd.
August 2021 - June 2024

UI/UX Designer
Gurugram, India

- Assisted in **conducting UX research** and iterative design for mobile application screens focused on property inspector. Supported implementation of changes to **enhance usability and improve task completion times**.
- **Responsibilities:** Created wireframes, mock-ups, and prototypes to visualize design concepts.
- Achieved a **20% improvement in task completion efficiency** by analyzing user behavior **using Google Analytics, Hotjar, and Mixpanel**.

- Developed high-fidelity wireframes and interactive prototypes in Figma, Sketch, and Adobe XD, **contributing to improved user experience outcomes**.
- Collaborated with developers in agile and scrum environments to **integrate design thinking methodologies** for rapid iteration.

PROJECTS

Prov.ai - AI-Powered Enterprise Data Analytics Platform

- Designed an AI-powered enterprise data analytics platform, simplifying database connectivity, data profiling, and governance workflows.
- Improved user workflows for sensitive data (PII) classification, human approval, and AI-generated insights through intuitive UI design and reusable components.
- Designed dashboards, interactive widgets, and artifact management experiences to help users visualize data, customize reports, and streamline analytics workflows.

Reverselogix - Return Management Platform

- Designed an end-to-end return management experience covering return initiation, eligibility, shipping, refund calculation, and return tracking.
- Created a return status dashboard with AI-assisted support, actionable status information, and clear next-step guidance.
- Designed responsive web and mobile experiences, focusing on reducing complexity across a multi-step operational workflow.

Gamerun.ai - Sports AI Platform

- Redesigned an AI-powered sports performance platform with athlete-focused dashboards and performance insights.
- Structured complex performance data into scannable dashboards, metrics, and visualizations to support faster decision-making.
- Developed a modern SaaS interface balancing data density, hierarchy, and usability.

Supplier Performance Dashboard - GreenStitch

- Designed a supplier performance dashboard to surface key KPIs, SLA risks, and supplier performance insights.
- Created information architecture and visualization patterns to help users quickly identify performance gaps and take action.

ACHIEVEMENTS

Participated in the **hackathon event**, given some solid ideas and implemented them and also been the part of the winning list.

Successfully designed multiple products from scratch, owning end-to-end user journeys, workflows, prototypes, and scalable design systems.

EDUCATION

Bachelor of Technology (B.Tech) 2018 - 2022
Dr. A.P.J. Abdul Kalam Technical University Lucknow, India
